

Course Retake Application (343.3)

Students may choose to review any course once for subject mastery with the following understanding:

- The student has not already successfully completed a succeeding course in the same curricular area.
- The same course must be reviewed during the regular school year at Elkhorn Area High School. Courses taken at other schools do not qualify for this policy.
- The grade and credit received will replace the original grade and credit in calculating GPA.
- Courses taken at a lower level are not considered course reviews.
- Course must be covered within 4 trimesters.
- Ability to review a course is dependent on room being available in the course.
- Review course grades will count toward extra-curricular eligibility.

Student Name _____ Graduation Year _____

Title of Course Being Reviewed _____

Semester and school year course was first taken _____

Semester and school year courses will be reviewed _____
